

CropBox™
INNOVATION INSIDE THE BOX

Reuse again and again and again... Save thousands, switch to CropBox™!

Why is sealed flute corrugated plastic better for CSA Boxes?

- Material is lightweight yet provides exceptional strength.
- Air is trapped between the flutes adding insulation to help maintain freshness.
- Soft material cushions delicate produce to help reduce bruising.
- Sealed edges lock out contaminants and bacteria making them easy to clean and sanitize.

**Your customers will applaud your commitment to the environment.
You'll enjoy the savings.**

CropBox™ CSA Boxes are an earth-friendly solution for closed loop distribution systems. The durable, sealed edges (see picture bottom left) make them easy to clean and sanitize and reuse year after year. Available in two ready-to-ship sizes.

Features:

- Substantial cost-savings
- Reusable, returnable and recyclable
- Hydro-cool directly in boxes
- Extremely durable—150+ uses
- Easy to clean and sanitize
- Sealed-flute edges lock out contaminants
- Light weight for ease of use
- Stacking tabs lock boxes in position
- Sturdy 75 lb. load weight for the small box and 100 lb. for the medium and large boxes
- Three ready-to-ship sizes
- Easy to collapse and store
- Soft, twin-wall polyethylene plastic cushions to reduce bruising
- Insulated plastic keeps produce fresher
- Impervious to moisture
- Mildew and chemical resistant
- UV inhibitor
- BPA free
- Made in the USA

Perfect for CSA's, Farmers Markets, Organic Produce Growers, Produce Distributors & Farm Stands.

Available Sizes

Sealed Flute Small CSA Box (1/2 bushel)
SF-101 16" L x 11.5" W x 7" H (od)

Sealed Flute Medium CSA Box (3/4 bushel)
SF-111 20" L x 11.5" W x 7" H (od)

Sealed Flute Large CSA Box (1 -1/5 bushel)
SF-121 20" L x 11.5" W x 11" H (od)

"Originally I had hoped to get 3 or 4 turns on the box. In reality I am getting 150 to 200 turns per box! We routinely put 20 to 40 pounds in a box and palletize them 5 high and they continue to pass the test. They are not difficult to clean and my customers like the fact that we are using a product that is not only reusable but recyclable. Thanks for all your help. "

- John Butler, American Produce Express
