

Black and White Corrugated Plastic Tree Guards

Protect your Investment!

Nurserymen and Orchardists have been using corrugated plastic tree guards with success for over 25 years. They are easy to apply and provide years of protection to young trees from deer, other predators, herbicides and tractor blight -- with an added bonus of being reusable!

Trees and trunks that are sensitive to sunscald are easily protected with our exclusive black and white Tree Guards.

- Prevent sun scald: the white outside reflects the bright light
- Added insulation helps prevent winter cracking and splitting
- Protect against herbicide spraying
- Stop predator damage (especially deer and jack rabbits)
- Prevent tractor and weed-eater damage
- Reduce sucker sprout growth
- Eliminate trunk scaring during transport and while digging
- Durable and reusable
- Easy installation, simply overlap and tie in place
